Chapter 1: Myth II Basics

1. Welcome to Myth II

Myth II is a real-time strategy game developed by Bungie and released in 1998. It is the sequel to the critically acclaimed Myth: The Fallen Lords and takes place in the same fantasy world of Mythos. Myth II introduces several new features to the series, including new units, buildings, and spells. It also features a more complex and challenging campaign than its predecessor.

In Myth II, players take control of one of four factions: the Humans, the Elves, the Dwarves, or the Undead. Each faction has its own unique units, buildings, and spells. Players must use their resources wisely to build armies and conquer their enemies.

Myth II is a fast-paced and challenging game that requires quick thinking and strategic planning. Players must be able to adapt to changing situations and make

quick decisions in order to succeed. The game is also very rewarding, and there is a great sense of satisfaction in defeating your opponents and conquering new territory.

Whether you are a new player or a seasoned veteran, Myth II is a game that you will enjoy. With its challenging gameplay, beautiful graphics, and immersive story, Myth II is a must-play for any fan of real-time strategy games.

Key Features of Myth II

- Four playable factions, each with its unique units, buildings, and spells
- A challenging and immersive campaign
- Fast-paced and action-packed gameplay
- Stunning graphics and sound
- A dedicated community of fans

Getting Started

If you are new to Myth II, the best way to learn the game is to play the tutorial. The tutorial will teach you the basics of gameplay, including how to build units, cast spells, and manage your resources. Once you have completed the tutorial, you can start playing the campaign or skirmish mode.

The campaign mode is a series of missions that tell the story of Myth II. The missions are challenging, but they are also very rewarding. As you progress through the campaign, you will learn more about the world of Mythos and the characters who inhabit it.

Skirmish mode is a more straightforward game mode where you can battle against the computer or other players. Skirmish mode is a great way to practice your skills and try out new strategies.

No matter how you choose to play Myth II, you are sure to have a great time. The game is a classic for a reason, and it is still enjoyed by many players today.

2. Basic Controls

Welcome to Myth II, where you command mythical creatures in epic battles! To begin your journey, let's delve into the basic controls that will guide your armies to victory.

Navigating the game world is as simple as a click. Use your mouse to select units, buildings, and other objects. Right-clicking brings up a context menu with additional options. To move your units, simply click on them and drag them to the desired location. Holding down the Shift key while clicking allows you to select multiple units simultaneously.

Engaging in combat is equally straightforward. Click on an enemy unit to target it, then click on the attack button. Units will automatically move into range and engage in combat. You can also use keyboard shortcuts to control your units and issue commands quickly. For

instance, pressing the "A" key will select all idle units, while the "S" key will stop all selected units.

Managing your resources is crucial for sustained warfare. Click on resource buildings (such as gold mines or lumber mills) to gather resources. You can view your current resource count in the top left corner of the screen. Units can be produced from buildings by clicking on the corresponding production button.

To cast spells, click on the spellbook icon in the bottom left corner of the screen. This will open the spellbook, displaying the spells available to your units. Click on a spell to cast it, targeting an enemy unit or location as necessary.

With these basic controls under your command, you are well-equipped to embark on your Myth II adventure. Remember, practice and experimentation are key to mastering the art of controlling your forces. Embrace the battlefield, and may your strategies lead you to glorious victories!

3. User Interface Overview

Myth II's user interface is designed to provide players with quick and easy access to all the information and commands they need during gameplay. The interface is divided into several key areas, each of which serves a specific purpose.

The Minimap:

The minimap, located in the lower-left corner of the screen, provides a real-time overview of the battlefield. It displays the positions of your units, enemy units, and important landmarks. The minimap can be zoomed in and out to provide more or less detail, and it can also be rotated to give you a different perspective on the battlefield.

The Resource Bar:

The resource bar, located at the bottom of the screen, displays your current resources, including food, wood, and gold. These resources are used to build units and structures, and they must be carefully managed in order to succeed in the game. The resource bar also displays your current population, which represents the maximum number of units you can have on the battlefield at any given time.

The Command Bar:

The command bar, located at the bottom of the screen, provides you with quick access to the most common commands in the game. These commands include building units, casting spells, and moving your units. The command bar can be customized to include the commands that you use most frequently.

The Unit Panel:

The unit panel, located on the right side of the screen, displays information about the currently selected unit

or group of units. This information includes the unit's health, attack power, and defense power. The unit panel also allows you to give orders to your units, such as moving them, attacking, or casting spells.

The Chat Window:

The chat window, located in the upper-left corner of the screen, allows you to communicate with other players in the game. You can use the chat window to ask for help, coordinate attacks, or simply socialize with other players.

The Options Menu:

The options menu, located in the upper-right corner of the screen, allows you to change the game's settings. You can use the options menu to adjust the graphics, sound, and gameplay settings.

The Myth II user interface is a powerful tool that can help you to succeed in the game. By learning how to use the interface effectively, you can quickly and easily

access the information and commands you need to control your units and defeat your enemies.
