The Deep State has its roots in the early days of the American republic. The Founding Fathers were concerned about the potential for a powerful bureaucracy to become a threat to liberty. They created a system of checks and balances to prevent any one branch of government from becoming too powerful.

However, over time, the bureaucracy has grown increasingly powerful. This is due in part to the increasing complexity of government. As the government has taken on more and more

responsibilities, the bureaucracy has had to expand to keep up.

Another factor that has contributed to the growth of the Deep State is the rise of the national security state. After World War II, the United States created a vast network of intelligence agencies and military bases. This network has become increasingly powerful and independent over time.
